Summary

Passionate Flutter Developer with hands-on experience in building responsive and user friendly mobile applications using Flutter and Dart. Currently working as a Flutter Intern at Bridgeon Solutions LLP. Strong foundation in UI design, local storage, and backend integration using Firebase and Supabase. Eager to learn new technologies, write clean code, and contribute to real-world mobile applications.

Skills

Programming Languages: Dart, Javascript

Mobile App Development: Flutter, Responsive UI Design, Custom Widgets, Material & Cupertino Widgets, Navigation & Routing, UI Optimization

State Management: Riverpod, Provider

Backend & Services: Firebase, Supabase, REST API Integration, Authentication Real-time Database, Cloud Storage

Local Storage: Hive, Shared Preferences

Tools Platform: Git, GitHub, Android Studio, VS Code, Postman

Experience

Working as a intern at Bridgeon Flutter Developer   **August 2025- present**
(Fresher / Personal Projects)
Flutter | Dart | Hive | Firebase | Supabase | UI Design

- Built a **Flipkart-style UI** clone using GridView, ListView, custom widgets, and reusable components.

- Developed a **Personal Money Manager** App using Hive for local storage with add, update, delete, and view features.

- Worked on an Admin-driven **Sports Eventer** App using Firebase and Supabase for authentication, data storage, and real-time updates.

- Gained practical experience in app architecture, UI optimization, and backend integration.

Projects

1. **Flipkart UI Clone** (Flutter)
   - Designed a Flipkart-style mobile interface using Flutter widgets like GridView, ListView, AppBar, and TabBar.
   - Created custom product cards and implemented responsive, scrollable layouts with asset images.

2. **Spots Eventer App** (Flutter + Firebase + Supabase)
   - Developed an e-sports management application .
   - Implemented user authentication, real-time event updates, and cloud data storage.
   - Designed a clean, intuitive, and admin-controlled interface.

3. **Personal Money Manager App** (Flutter+Hive+UID)
   - Built a responsive UI to track expenses, income, and savings.
   - Implemented local storage using Hive with separate data storage for each user.
   - Focused on ease of use and clean design

Education

Higher Secondary in Computer science, Ma'din HSS, Malappuram   **2023 - 2025**
